### NEW Weekly Report Provides Dealers Helpful Order Tracking & Trailer Information Details

Doonan has introduced a New Weekly Dealer Schedule to better assist our dealers with tracking and maintaining a record of their placed Stock and Sold orders.

A key addition to this new .PDF formatted Report, is the inclusion of the last 8-digits of the VIN, once the trailer has been scheduled, rather than waiting until the trailer has been engineered.

#### Other improvements to the New Weekly Schedule include:

- **Full VIN #** – The full VIN will appear once the trailer has been engineered (4-weeks prior to start date).
- **Dealer PO #** – For better tracking.
- **Identification of Stock versus Sold trailers.**
- **End Customer Name** – This information will appear in the Report, only if provided by the dealer in the quoting process.
- **Weeks Until Production Start** – This helps dealers identify which trailers in the schedule can be changed.

In addition to the above, Doonan® has added a 'Summary' at the bottom of the schedule. This identifies what you (the dealer) has purchased in Q1, as well as what is on order.

The provided Summary information also details what dealers have purchased YTD; and what is on order for the remainder of the year.

If you have questions concerning your dealership's Report data, please contact your Doonan® Sales Representative at 800-734-0608.

### SPECIALTY PRODUCTS SHOWCASE: The Doonan® Platinum™ Mini-Double Drop

Delivers more than just reduced transport costs and improved profitability; the innovative lightweight trailer design offers the ultimate in load capacity and durability!

#### Engineered to Provide Optimal Versatility and Cost-Effectiveness

in comparison to a true Double Drop or RGN, the Doonan® Platinum™ Mini-Double Drop can be constructed with a 6-13" deep well on a 40" rear deck height trailer (approximately 27"-34" deck height well); or, a 3-5" deep well on a 35" rear deck (approximately 30"-32" deck height well).

When presented with the requirement of providing our customer with a lightweight, corrosion resistant trailer, for use in hauling low-clearance vehicles and back hauls of high-cube cargo, Doonan® met the challenge with its Platinum™ Mini-Double Drop trailer.

With a full 102-inches width, smooth side rails and overall length of 53-feet; Doonan's custom frame design combines the advantages of a lightweight steel chassis (hot-dipped galvanized for superior corrosion protection and resistance), together with a durable extruded aluminum perimeter frame and flooring.

The Mini-Double Drop boasts a load capacity of 90,000-pounds GVWR and 60,000-pounds concentrated in 10-feet to accommodate heavy hauls. Load securement is provided using internal chain ties and D-rings, which are recessed in the floor.

Ultra-lightweight features of the trailer include two aluminum 26" front flip extensions on the 9' top deck for additional wheel space at the front of the deck for vehicle hauling. A 13.5 degree descending sloped-neck and rear deck-to-bay area offers the ability to haul more freight, with excellent versatility for loading low-ground

clearance vehicles, while allowing for higher cube cargo/equipment in the bay area.

Located at the sloped neck, is an all-aluminum full-width ramp system, providing the lightest weight ramping to the trailer's upper deck area.

Convenience and durability are engineered throughout the trailer's unitized design. This is prevalent in the large capacity, 105" tapered aluminum storage box, built into the sides of the front sloped neck. This component is designed to accommodate the two folding rear aluminum dovetail ramps when they are removed – providing additional vehicle carrying capacity on the tapered rear deck.

A smooth aluminum floor encompasses the trailer, thereby saving weight, providing better fuel efficiency and extending the trailer's life cycle. A fixed dovetail rear enclosure allows for safe and efficient equipment loading.

With over 40-years trailer engineering and manufacturing experience, Doonan® is continually building upon its reputation of providing the highest quality products and customer satisfaction. We strive to exceed our customers' expectations, delivering exceptional value to the growing specialized trailer market.

Wishing you a very MERRY CHRISTMAS and Happy New Year

From Everyone at DOONAN® SPECIALIZED TRAILER LLC

OUR OFFICE & PLANT WILL BE CLOSED Friday, Dec. 25, 2015 and Friday, Jan. 1, 2016.
