SPECIALTY PRODUCTS SHOWCASE

Double Drop Platinum™ Mechanical Detachable RGN

Engineered to maximize the trailer's load capacity, while staying under the customer's requested 14,400 lbs. trailer weight; this 48' x 102", 2-axle Doonan® double drop Platinum™ trailer features a mechanical RGN (removable goose neck) that detaches and moves away from the trailer's lower deck. This allows the load to be driven onto the trailer.

Constructed of 4-main steel beams with steel cross members in the well; this custom painted steel and aluminum combo RGN boasts a 90,000

GVWR with a beam rating of 60,000 in 16'. Features added to ensure the trailer's hauling capability include: A recessed area at the front of the rear deck, a storage box in the floor, Hendrickson HT Suspension, 255/70R22.5 tires, an open aluminum rear-end, outriggers for hauling wide loads, and for load securement: D-rings, chain anchors and tie-bars.

Doonan® builds quality and value into every trailer we make. Contact us today with your specialized trailer need!

Doonan® Readys for the Mid-America Trucking Show : March 23 – 25 at Kentucky Expo Center, Louisville, KY

As in years past, Doonan® has secured a 30'x60' MATS booth, for the benefit of its dealers to meet-up with and discuss the features and benefits of its trailers with customers and prospects. Doonan® is bringing (6) six trailers to the event this year, with an emphasis on spotlighting its high-efficiency flatbed trailers.

"We are expecting a high dealer booth representation turnout and look forward to seeing our dealers." stated Kelly Zecha, National Dealer Manager/Application Specialist. Doonan® will also host a dealer dinner the evening of

Thursday, March 23 at Joe's Crab Shack 6:30 PM.
